AppDirect

Maximize your AWS investment with AppDirect

IMPLEMENTING A HOLISTIC INFRASTRUCTURE STRATEGY IS COMPLEX

Navigating the wide array of infrastructure tools and finding the right fit for your business can be time-consuming and complicated.

APPDIRECT MAKES IT SIMPLE

We provide expert guidance and managed services to help you evaluate, implement, manage, and support your IT solutions.

36%

OF IT LEADERS FEEL TECHNOLOGICALLY PREPARED TO SUPPORT NEW BUSINESS CHALLENGES

OPERATIONAL EXCELLENCE

Cloud Operations Improvement
Optimize cloud resource allocation, governance, and automation to drive efficiency and maintain compliance.

Architecture Consulting
Guidance on cloud architecture design, scalability, and best practices for high-performance workloads.

Cloud Cost Optimization
Implement cost-saving strategies, including rightsizing resources and optimizing spend visibility.

SECURITY AND COMPLIANCE

Security and Resilience
Strengthen cloud security with IAM, logging, disaster recovery, backup, and archiving strategies.

Cloud Connectivity
Design and implement secure, high-performance cloud networking, including hybrid and multi-cloud architectures.

DATA AND ANALYTICS

Data Analytics Solutions
Enable data-driven decisions with data lakes, warehouses, real-time analytics, and visualization tools.

Open Source Database Services
Implement and manage open-source databases like Kafka and Apache for high-performance data processing.

CUSTOMER EXPERIENCE AND ENABLEMENT

Amazon Connect CCaaS
Deploy and optimize cloud-based contact centers for seamless customer engagement and efficiency.

AWS Training and Enablement
Offer hands-on training programs to upskill teams and accelerate cloud adoption.

APPLICATION AND INFRASTRUCTURE OPTIMIZATION

Cloud Adoption and Migration
Guidance through cloud migration, ensuring minimal disruption and accurate cost forecasting.

Infrastructure Modernization
Transform legacy systems with microservices, containerization, and serverless architectures.

Kubernetes Optimization
Enhance Kubernetes deployments for better performance, scalability, and resource efficiency.

Storage Assessment and Optimization
Evaluate and optimize storage solutions for performance, cost, and reliability.

ENTERPRISE DISCOUNT PROGRAM NEGOTIATION

AWS EDP Negotiation
Secure the best deal by optimizing costs, modernizing infrastructure, and strategic negotiation.
